SUPPLEMENT

1. In early November production of automatic submachine guns known as "Pepesz" began at the Cegielski Factory in Poznan which now is operating under the supervision and control of a Soviet captain.
2. The first five "Pepesz" automatic submachine guns were inspected by a special Soviet delegation and Marshal Rola-Zymierski. One of the five weapons did not function and as a result a revision took place resulting in a more rigid control in the factory.
